

Chapter 5. PRIVATE SEWAGE DISPOSAL

Section 5.10. Where a public sanitary sewer is not available under the provisions of Chapter 4, any existing building sewer shall be connected to a private sewage system complying with the all applicable provisions of the law.

Section 5.20. The owner shall operate and maintain the private sewage system in a sanitary manner at all times, at no expense to the District.

Section 5.30. At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in Chapter 4, the building sewer shall be connected to said sewer as provided in Section 4.10, and the private sewage disposal system shall be abandoned in compliance with law.
